More ISO standards examples and approaches

How to get started?

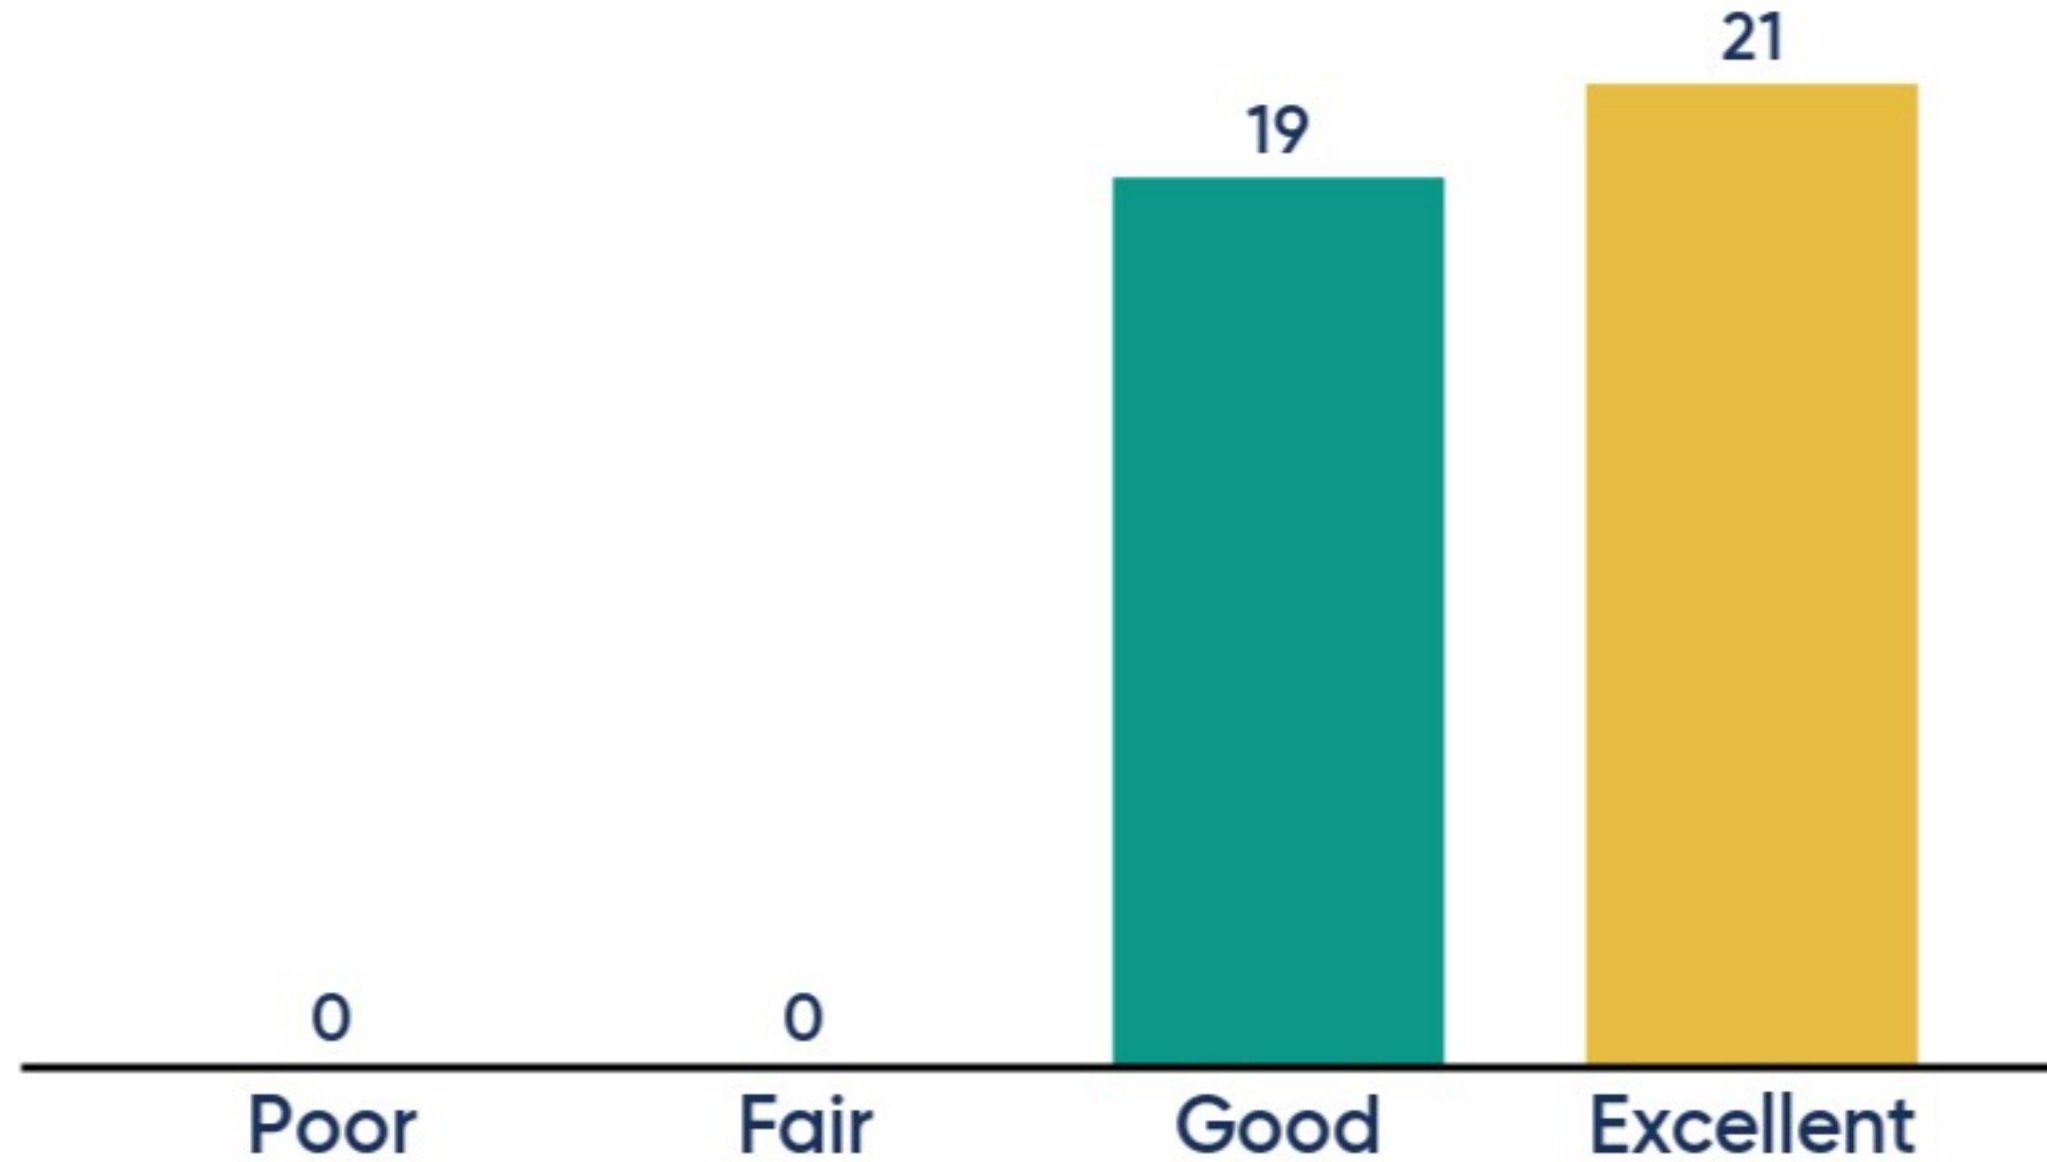

Life cycle decisions

Which other topics would you like us to cover in the next webinars?

How to convince management that asset management is important.

With this expensive process when will the organization be rewarded with an accredited certification in Southern Africa? Reason for this question there is currently no organization ISO 55000 certified.

In overall, how do you rate the event?

Any suggestions?

xx

Thanks

Excellent work

I think the session was perfect. Just practical examples

Keep it up

Thank you

No

Thanks

More practical examples

Any suggestions?

Distribution for materials, pdfs or recordings

I suggest the next webnair after these 3 an interactive with audience possibility will be better
